

Shokwer Team Octopus, represented by Ben Chatterton, Erin Dietz, Matthew Gordon, Ben Hancock, Dan Hancock, Samantha Hince, Olivia Kloster, and Jarod Stickley, has created the concept of a student-friendly, multi-user, online calendar that would include sporting events, convocations, campus events, and club activities to be used by the Bridgewater Student Body and Bridgewater Community interactively. Along with the concept, Team Octopus has generated several forms of data and research to be used to supplement its creation.

Upon meeting the Bridgewater IT department and Student Life, it was clear a collaborative effort would be needed to make the calendar realized. Team Octopus would like to recognize the following terms upon the turnover of the concept and research:

1. Team Octopus will be given appropriate credit and recognition for the research completed.
2. Team Octopus will be given appropriate credit and recognition for the concept of the calendar.

The terms above are to ensure that Team Octopus is given appropriate credit to their efforts in the research and development of this multi-user calendar. The research compiled will be turned over to both Bridgewater IT Department and Bridgewater Student Life at the conclusion of the 2018/2019 Showker Competition of April 6, 2019.
