Presentation Outline

I need from each group (you can send it to me as a word document in an email attachment) – a detailed outline of your final presentation. If all 9 teams get to the final reveal, we will probably limit the presentations to 4 minutes! That's only 240 seconds to blow the judges away! So, you need to think very hard about how you want to use each of those 240 seconds to give the best presentation. You should probably think about breaking down your presentation in 15-20 seconds intervals and figure out what you want to accomplish in each of those intervals. Obviously, you do not need to send me your full presentation, but I DO NEED an outline stating how you plan to use your 4 minutes. (For example, you may not have your final "product" yet, but you might write on your outline " – At the 90 second mark, bring out the _____ and discuss it until the 120 second mark")
